- **Homepage**

Login (the login button is in the upper right corner)

You will have to log in to access the two main functions (Flight/Orders) and the rest (Airline/Developers/Contact) can be checked without login.

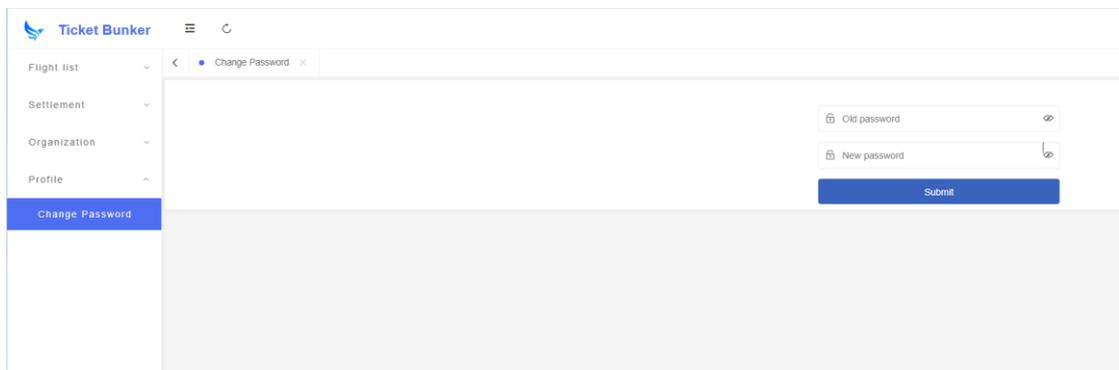

● Login Page

1. Email & Password

At first, we will provide 4 currencies test account for you to do fare check.

When about to go live, we will need an email address from you to create admin.

Once you had the admin, you could log in your account and change your password.

4 test accounts are addressed below:

USD

Username: tester-usd@t-bunker.com

Passcode: tester0612

EUR

Username: tester-eur@t-bunker.com

passcode: tester0520

AUD

Username: tester-aud@t-bunker.com

Passcode: aud0710

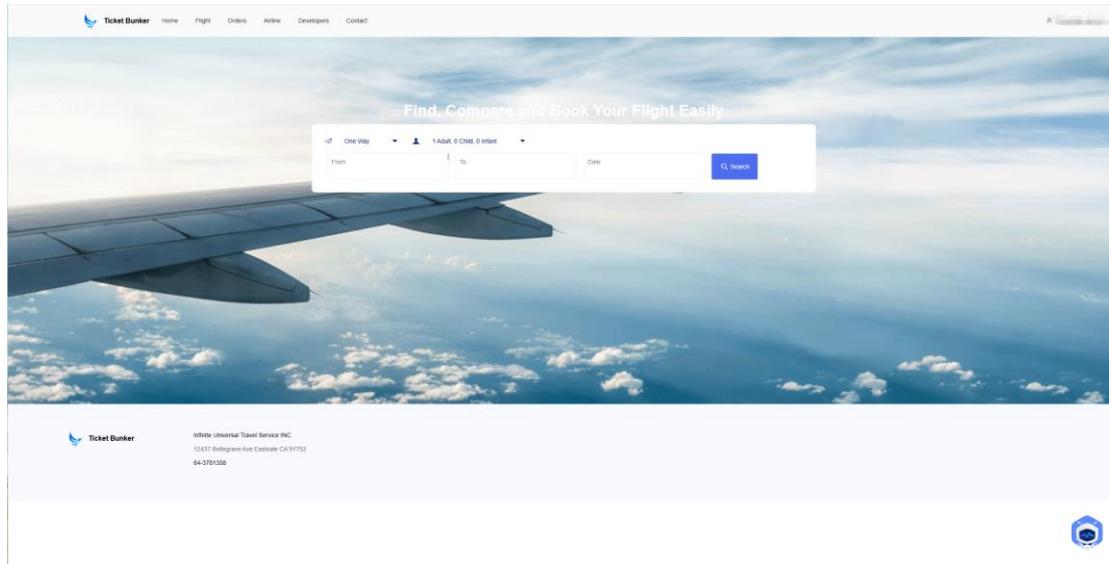

CNY

Username: tester-cny@t-bunker.com

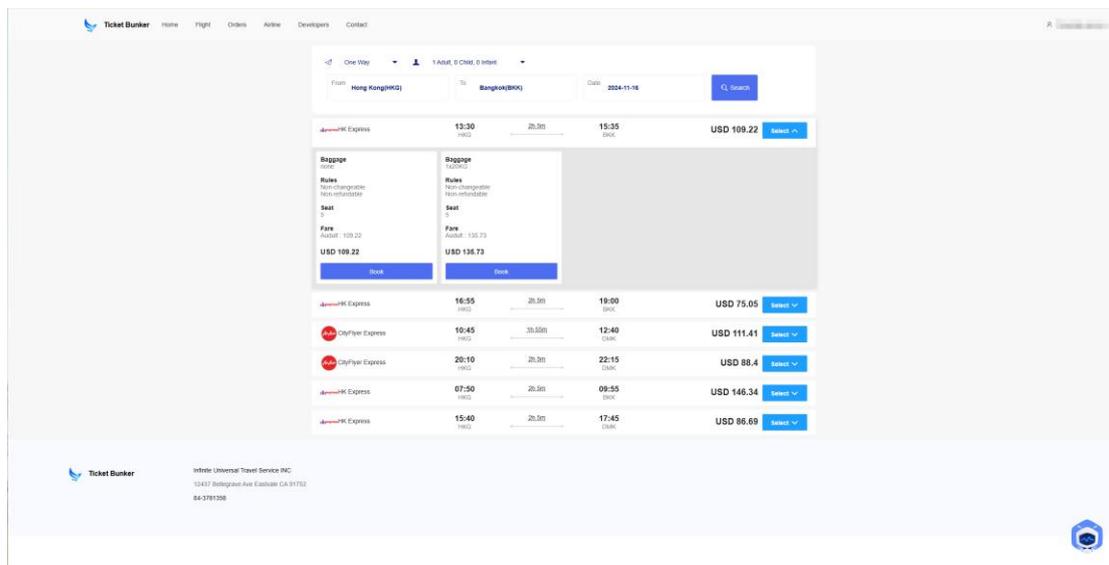

Passcode: test0724

2. Code: math tricks :)

● Flight Page (Fare checking/Benchmarking)

1. Choose one way/round trip, the number of adult/child/infant and the departure date and let the searching begins.

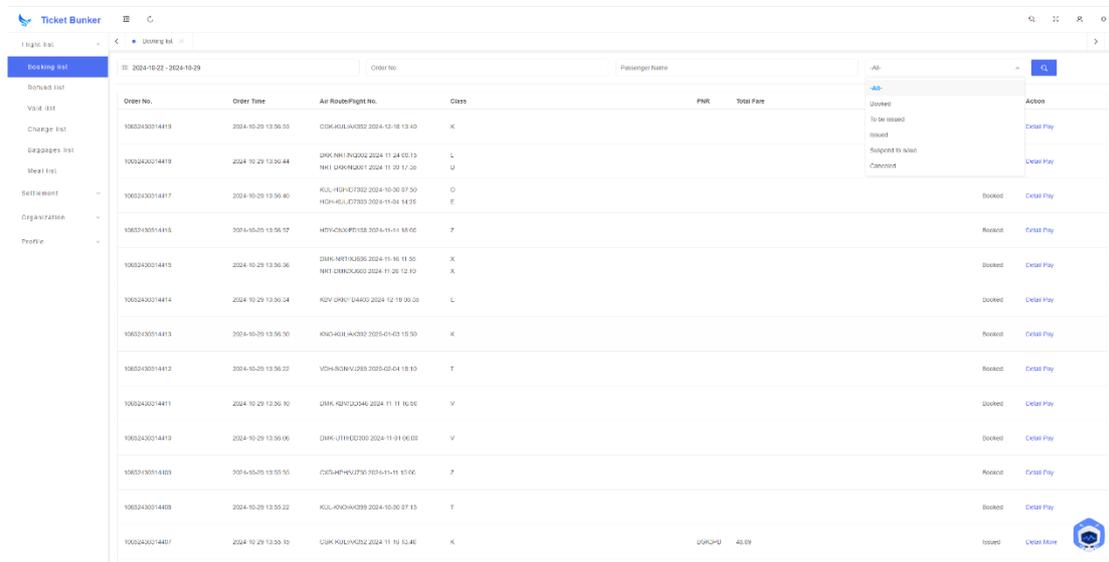

2. Let's take this flight as an example, for most flights we provide multiple fares including flight fares only and bundle fares.
3. If you have discovered some flights missing, it's mainly due to the testing account issue. You could contact us and we would adjust the flight inventory for you at once.

● Orders Page

1. Flight list (Orders Management)

1) Here, you can view all your orders and find orders by selecting the date, order number, pax name, and the ticket status including

Booked: You have successfully created orders in our system.

To be issued: The order is waiting in queue to be issued.

Issued: The order has been issued successfully. For most of the flights, we can issue within 2 hours and the rest of the flights take 4 hours.

Suspend to issue: The order that you request to suspend issuing and it had been suspended successfully.

Canceled: The order once created in our system, you have one hour (two hours tops) to make the payment, or the order will be over time and canceled.

5) When the ticket is issued, we have a **More** button to add baggage/meal or refund/void/change. Then the orders will automatically go to the corresponding list. And the seat selection function will be added here shortly, it's under our IT team's development now.

- 6) For **Refund**, please choose the reason and upload the related documents, the remarks area is also required, or the request will have a high possibility of being rejected by our post-team. As for the refund calculation and refund without confirmation, kindly ask to check below for further explanations.

- 7) For **Void**, certain LCC airlines do not allow to void, please watch out.

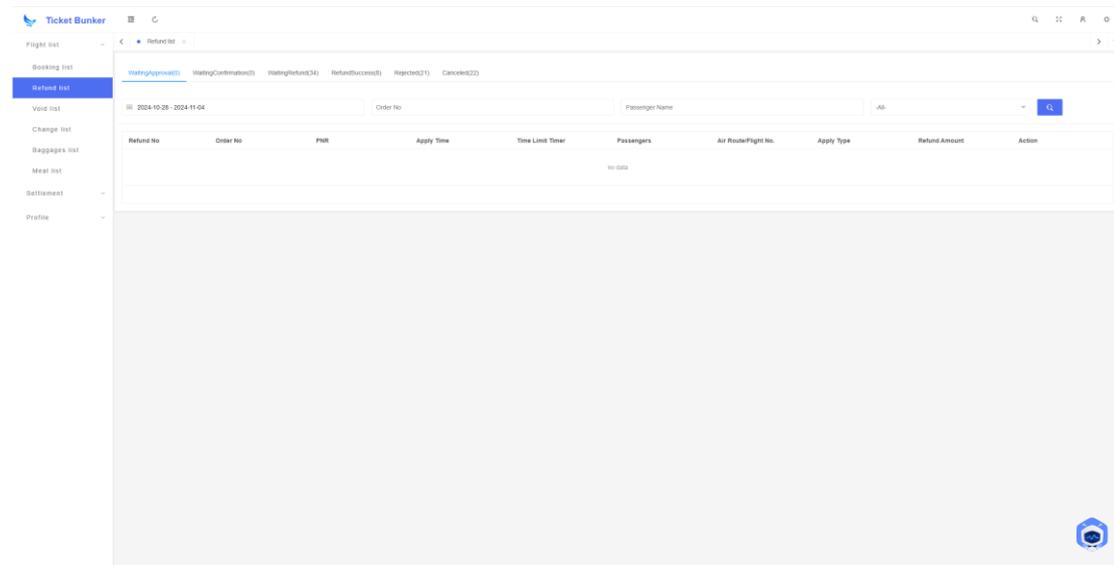

The screenshot shows a web interface for a 'Change' form. The form is divided into several sections:

- Passengers:** A dropdown menu showing 'Maeoksa/7Mcha' and 'F'.
- Change Reason:** Radio buttons for 'Voluntary' (selected) and 'Involuntary'. A dropdown menu for 'Reason' is set to 'Itinerary change'.
- Original Itinerary:** A dropdown menu showing 'Departure DMGJTH 2024-11-10 19:30 DCS10'.
- Target Itinerary:** A dropdown menu.
- Contact:** Fields for 'Mobile' (+6627101927), 'Email' (d202764916@163.com), and 'Address'.
- Remark:** A text area for entering remarks.

A blue 'Submit' button is located at the bottom right of the form.

- 8) For **Change**, you can change the itinerary (RT can be changed separately) and the pax info here. Please choose the reason and upload the related documents, the remarks area is also required, or the request will have a high possibility of being rejected by our post-team.

1.2. Refund list

Waiting approval: The refund order submitted by you and is under our review.

Waiting confirmation: The order is refundable and we have given you a refund amount, if you agree on it (the time limit normally will be 2-3 hours), click confirmation and the orders will go to the waiting refund list, if you don't, click canceled and the orders will go to canceled list. (This step won't be necessary and the order will go straight to the waiting refund list if you choose refund without confirmation in the previous booking list.)

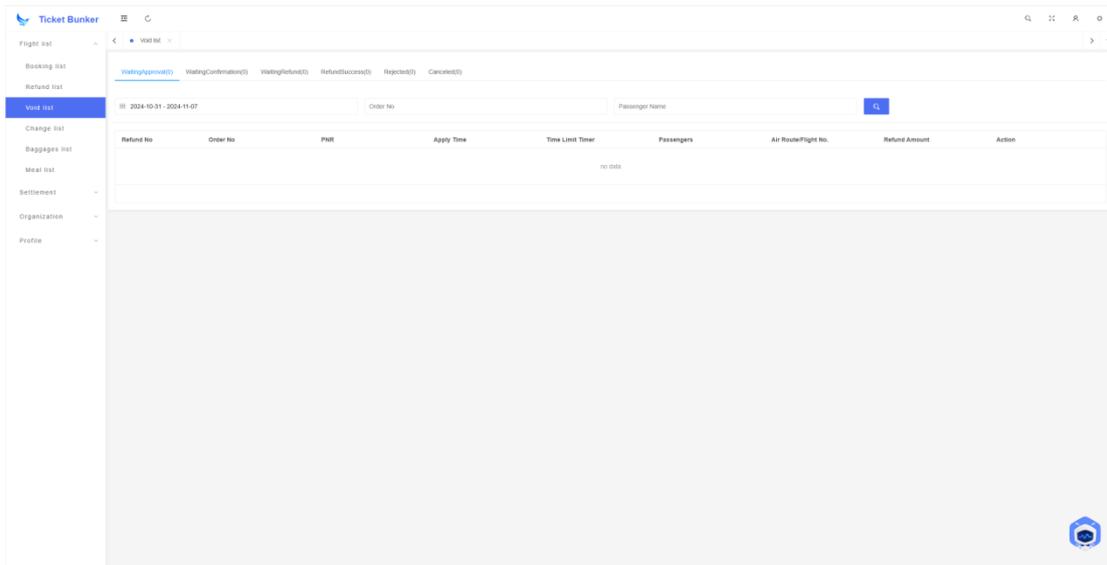

Waiting refund: Waiting for the airlines to send back the refund amount or voucher code to us.

Refund success: We have received the refund amount from the airlines and it will be added to your account credit at once.

Rejected: The refund request has been rejected by us. There are some reasons for the rejection, 1. The order is non-refundable; 2. The refund amount that needs your confirmation has been over time; 3. You have chosen the wrong types (voluntary/involuntary) of the refund reason.

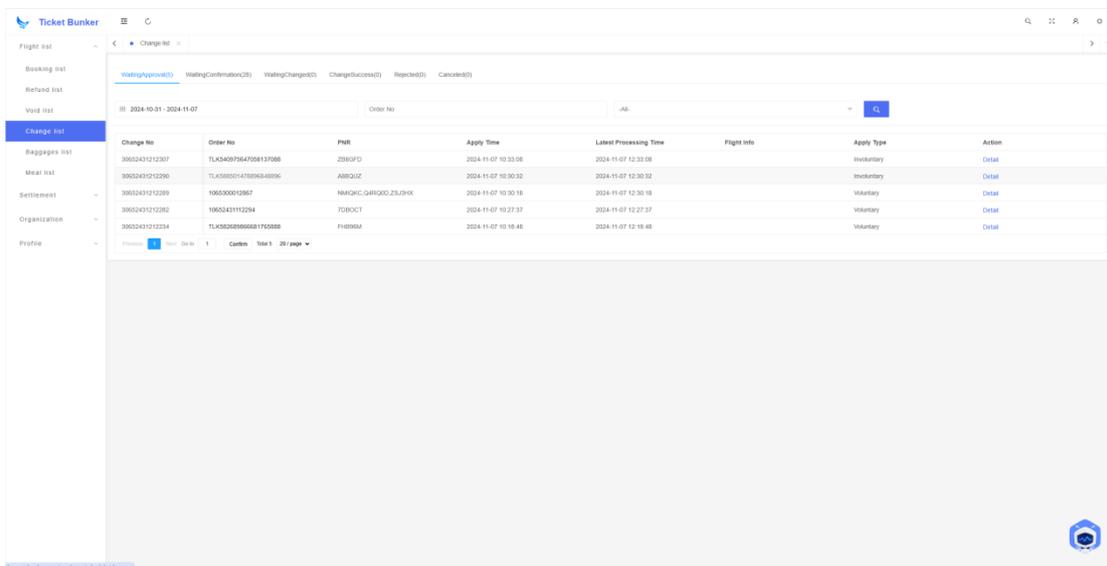

Canceled: You have canceled your refund request.

1.3. Void list

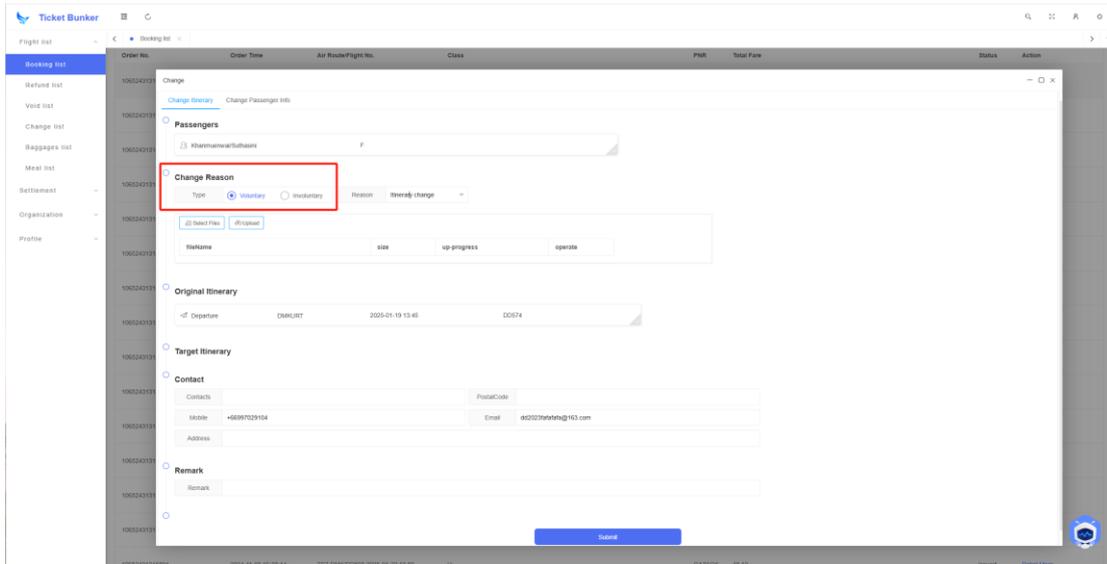

The procedures are pretty much the same as refund. Except there won't be skipping the confirmation step from your side.

1.4. Change list

The procedures are pretty much the same as refund. Except there won't be skipping the confirmation step from your side.

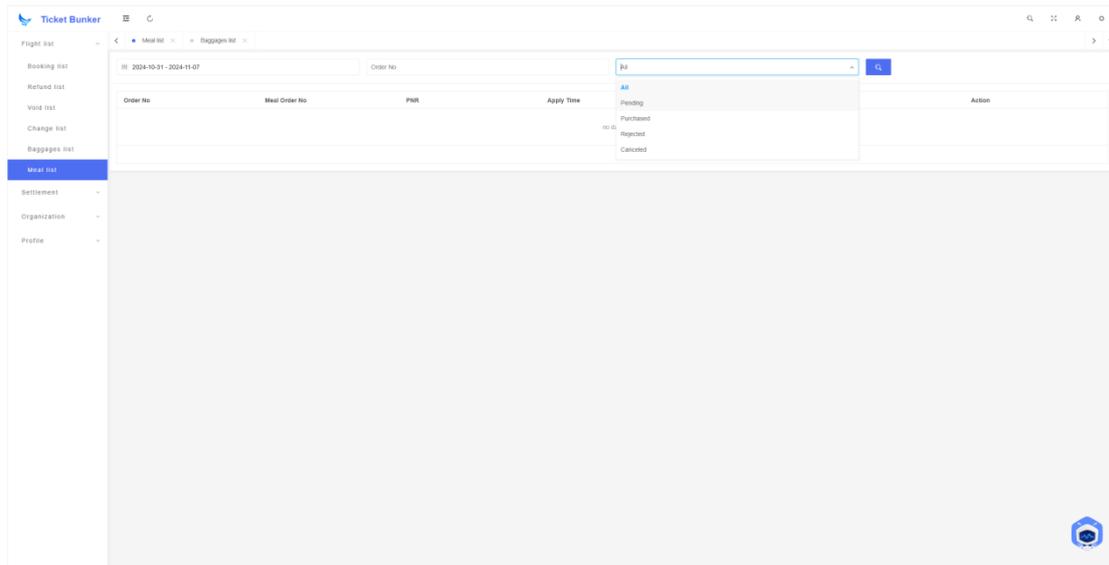

The change can be voluntary and involuntary.

1.5. Baggage list

You can check your baggage order here, we will show you the flight order number, baggage order number, PNR, apply time, air route/flight Number, status (pending/purchased/rejected/canceled), and actions for detail.

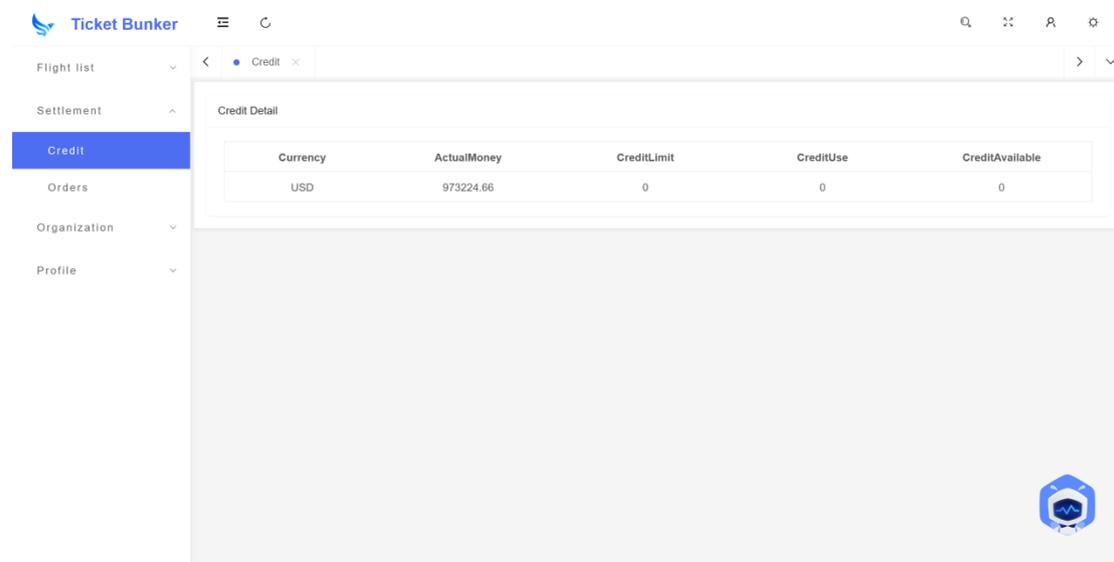

1.6. Meal list

The meal list is pretty much the same as the baggage list.

2. Settlement

1.1. Credit

Currency	ActualMoney	CreditLimit	CreditUse	CreditAvailable
USD	973224.66	0	0	0

Currency: The top-up/prepayment currency you made to us, and different currencies will be separated.

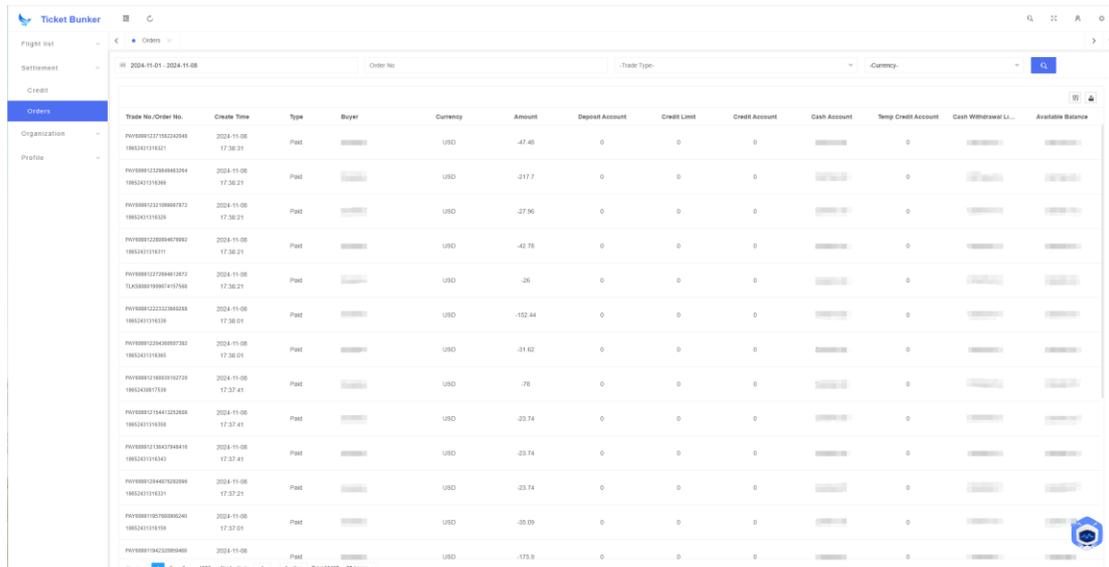

Actual Top-up: The total amount you've recharged.

Credit Limit: The amount we may offer credit limit to you while running out of Top-up, but do need to pay back later.

Credit Use: The amount we offer as credit that you consumed.

Credit Available: The amount of remaining credit and can be used currently.

1.2. Orders

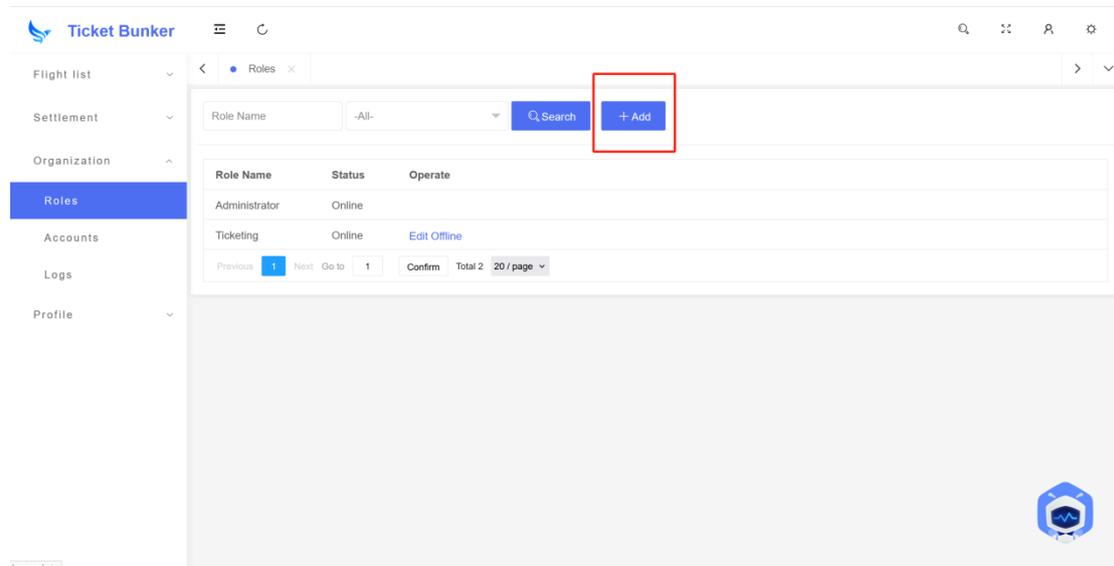

The screenshot displays the 'Orders' section of the Ticket Bunker interface. The main content is a table listing various transactions. The table has the following columns: Trade No./Order No., Create Time, Type, Buyer, Currency, Amount, Deposit Account, Credit Limit, Credit Account, Cash Account, Temp Credit Account, Cash Withdrawal Li..., and Available Balance. The data rows show transactions with 'Paid' status, all in USD currency, with amounts ranging from -175.9 to 217.7. The interface includes a sidebar with navigation options like 'Flight list', 'Settlement', 'Credit', and 'Orders'. At the top, there are filters for 'Order No.' and 'Table Type', and a 'Currency' dropdown set to 'USD'. A search icon is visible in the top right corner.

Your accounting can download the daily or weekly report here including any purchases (tickets/baggage/meal) and refunds will be auto-generated.

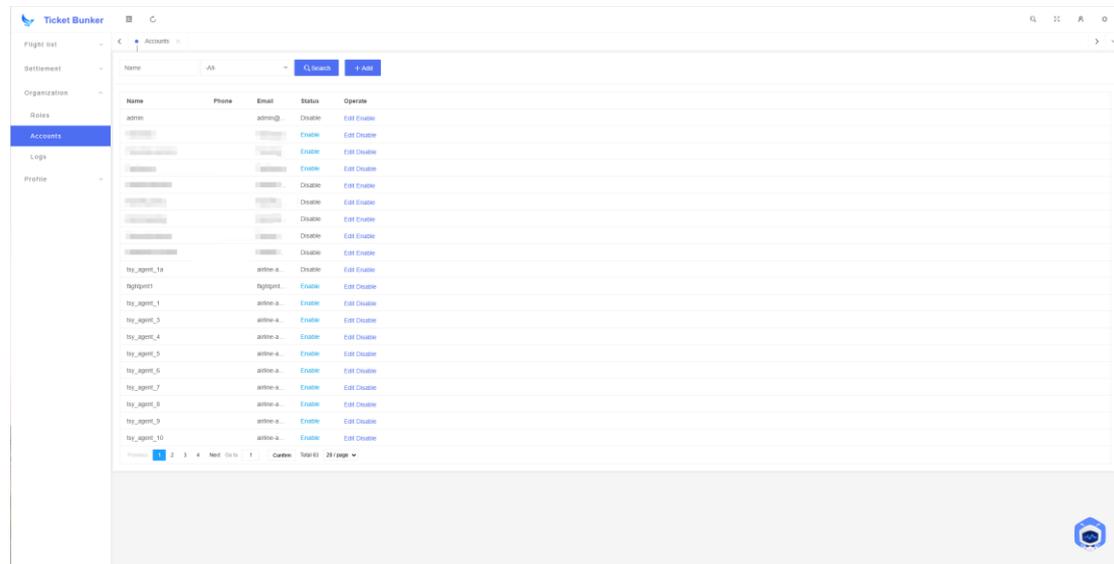

3. Organization

1.1. Roles

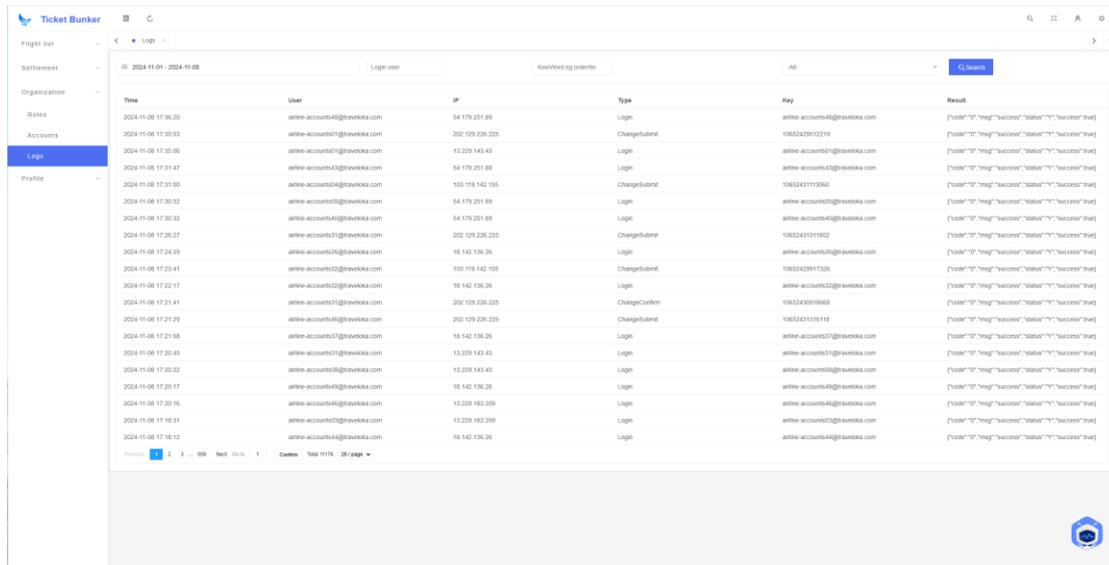

You could add roles to manage the portal.

1.2. Accounts

The accounts that could log in the portal and you could add as many accounts for your team to manage as you want, there is no restriction to the accounts amount.

1.3. Logs

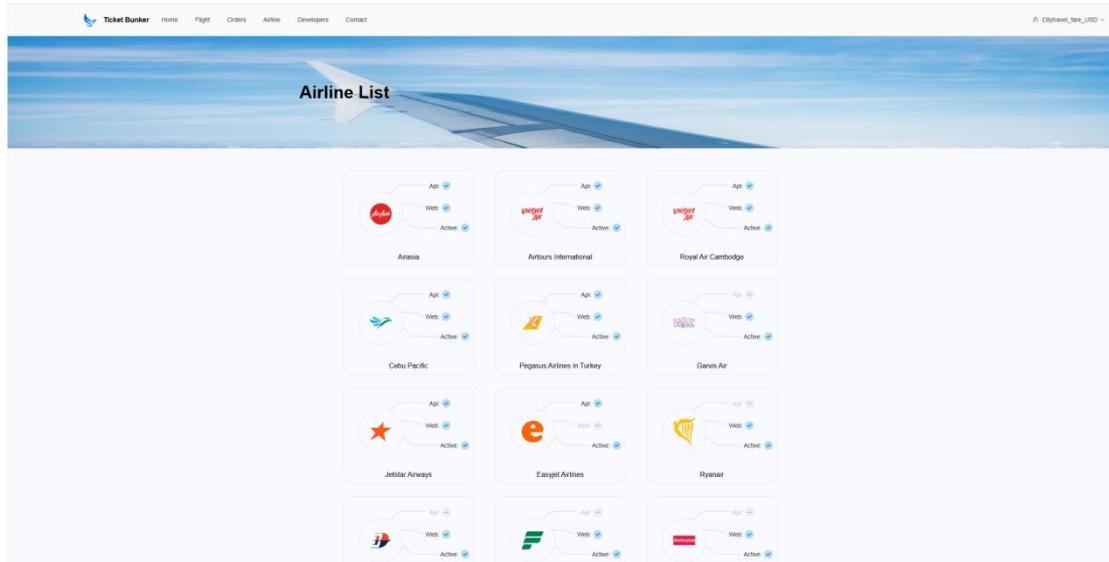

The screenshot shows the 'Logs' page in the Ticket Bunker application. The page has a sidebar on the left with navigation options: 'Flags list', 'Settlement', 'Organization', 'Roles', 'Accounts', 'Logs' (selected), and 'Profile'. The main content area displays a table of logs for the date range '2024-11-01 - 2024-11-08'. The table has columns for 'Time', 'User', 'IP', 'Type', 'Key', and 'Result'. The logs show various actions such as 'Login' and 'ChangeSubnet' performed by different users (e.g., 'a@free-account-48@traveka.com'). The 'Result' column contains JSON-like strings indicating the outcome of each action, such as '[{"code": "0", "msg": "success", "status": "1", "success": true}]'. At the bottom of the table, there is a pagination bar showing 'Page 2 of 69' and 'Total 1176 / 20 / page'.

Time	User	IP	Type	Key	Result
2024-11-08 17:36:20	a@free-account-48@traveka.com	54.179.251.89	Login	a@free-account-48@traveka.com	[{"code": "0", "msg": "success", "status": "1", "success": true}]
